11TH ARNSBERG VASCULAR COURSE (AVC)

IN COOPERATION WITH THE 1ST ENDOVASCULAR
CONGRESS OF THE GERMAN SOCIETY OF
ANGIOLOGY (DGA)

INVITATION & PROGRAM

Thursday 30.3.2017 to Saturday 1.4.2017
Venue: Jagdschloss Herdringen

For further information:

www.dga-gefaessmedizin.de/veranstaltungen
www.klinikum-arnsberg.de/gefaesstage

Dear Colleagues,

We welcome you to the 1st Endovascular Congress of the German Society of Angiology and the 11th Arnsberg Vascular Course at Schloss Herdringen.

The combined scientific concept is focused on interdisciplinary cooperation in the treatment of vascular diseases. Again, the most recent endovascular and surgical therapies will be given emphasis. In view of the diverse and rapid developments in the treatment of arterial and venous diseases, we would like to present these "live" as well as discuss their advantages and disadvantages with you.

More than 120 lectures will be held by renowned national and international speakers during the three days of the Convention. State-of-the-art lectures with explanations of guidelines will help you to implement the experts' recommendations into clinical routine. Vascular interventions will be presented live by satellite from the catheter laboratories of three high volume centers, and the use of the most recent techniques will be demonstrated. As in the preceding years, we will also welcome several international guests and discuss therapy strategies from other countries. The official language of the Convention will be German. An interpreting service will be offered as always.

The German Society of Angiology and the organizers of the Arnsberg Vascular Course will be glad to greet you at a diverse and exciting Congress in Arnsberg in 2017.

With best wishes,

**Dr. Michael Lichtenberg and
Dr. Wilhelm Friedrich Stahlhoff**

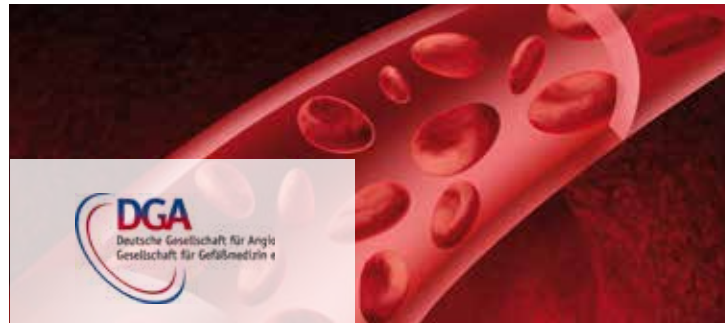

Chief Physicians at the Clinic of Angiology, Klinikum Arnsberg

Prof. Dr. Norbert Weiss

Executive Secretary, German Society of Angiology, Society of Vascular Medicine e.V.

Prof. Dr. Ulrich Hoffmann

President of the German Society of Angiology, Society of Vascular Medicine e.V.

**MAIN TOPICS 30.3.2017 to 1.4.2017**

Therapy strategies in complex aortic disease

Conservative and endovascular treatment of vein thrombosis and chronic pelvic vein obstruction

New recanalization strategies for peripheral arterial occlusive disease

Therapy strategies for critical limb ischemia

Therapy strategies for stenoses in the extra- and intracranial vessels supplying the brain

Modern vascular imaging

Update on anticoagulation

Late-breaking clinical trials

LIVE CASE CENTERS

- Berlin, Sankt Gertrauden Hospital, Clinic of Angiology
- Bad Krozingen, Heart Center, Clinic of Angiology
- Arnsberg, Klinikum Arnsberg, Clinic of Angiology

**VENOUS WORKSHOP
with Hands-on Course on 1.4.2017**

Recanalization of acute and chronic pelvic vein obstructions

Faculty: M. Lichtenberg, R. de Graaf, T. Heller, H. Jalaie, S. Black, G. O`Sullivan

- Live case presentations and discussions
- Tips and tricks in venous recanalization
- Lectures on the practical implementation of venous interventions
- Stent material
- Intravascular ultrasound
- Thrombectomy devices
- Current studies
- Hands-on exercises

You will need to register for these separately at www.klinikum-arnsberg.de/gefaesstage

**Endovascular Workshop
"Young Angiologists" on 31.3. 2017**

Organizational management:
Dr. Bernd Krabbe and Dr. Carolin Schöter

- Live broadcasts
- Simulator exercises
- Hands-on exercises
- Step-for-step lectures
