Dear Colleagues,

In May 2017 the Third Annual Congress of the European Society for Vascular Medicine will take place in Graz, Austria. In addition, the congress will be staged in cooperation with the International Union of Angiology (IUA), making it the first event to illuminate the field of vascular medicine in all its many facets on a European level.

The latest developments in the field of vascular medicine will be the highlights of this event. Vascular medicine is the fastest growing field of internal medicine. Patients with peripheral artery disease currently account for the third largest disease category worldwide, associated with an exceptionally high cardiovascular risk and resulting in an exceedingly high mortality rate. Access to treatment for these vascular patients is still appalling on a global scale.

Therefore, it is important to establish a network to help these patients with the highest level of knowledge. The ESVM Congress in May 2017 is to contribute to this. Graz is a very beautiful city. It was a European Capital of Culture, and we are very happy to invite and welcome you to this hub in the heart of Europe.

We wish you a wonderful stay at the congress in the city of Graz and a memorable conference experience from which you will take home reinvigorated expertise for the treatment of your patients.

Yours sincerely,
Marianne Brodmann

Sunday, May 7th, 2017

Registration open from 12:15

13.00 Lecture Hall 1

Part I: Experts presentations

14.00 Break

14.30 Lecture Hall 1

Part II: Hands-on Course

16.00 Lecture Hall 1

Part III: Discussion round

18.30 Lecture Hall 1

Opening Ceremony

Monday, May 8th, 2017

Registration open from 06:45

06:45 Lecture Hall 1

>> Compression in Angiology – New approaches

06:45 Lecture Hall 2

Non-invasive vascular diagnostics in peripheral artery disease (PAD) endorsed by SIDV and IUA

06:45 Lecture Hall 2

Multifocal atherosclerosis and cardiovascular outcome endorsed by the IUA

07:00 Lecture Hall 2

>> ePoster Session

07:00 Lecture Hall 2

Break

08:00 Lecture Hall 2

>> Management of Recurrent VTE and Related Disorders Innovative Approaches endorsed by the IUA

08:00 Lecture Hall 2

>> ePoster Session

09:00 Lecture Hall 2

Break

10.00 Lecture Hall 1

>> Critical limb ischemia

10.00 Lecture Hall 2

>> Response Adapted Combination Therapy – how do I treat SFA lesions?

10.30 Lecture Hall 1

>> Symposium endorsed by the Slovenian Society of Vascular Diseases

10.30 Lecture Hall 2

>> ePoster Session

11.30 Lecture Hall 1

>> Aneurysmal Disease of the Aorta” From Screening to simulation endorsed by the Irish Society of Vascular Medicine and The Serbian Society of Vascular Medicine

11.30 Lecture Hall 2

>> ePoster Session

12.30 Lecture Hall 1

Arterial ageing endorsed by the Slovenian Society of Vascular Diseases

12.30 Lecture Hall 2

“Ancestral Cults of the Aorta” From Screening to simulation endorsed by the Irish Society of Vascular Medicine and The Serbian Society of Vascular Medicine

13.00 Lecture Hall 1

Various issues about exercise in PAD

13.00 Lecture Hall 1

Asymptomatic carotid stenosis endorsed by MALIVS, ESVM and SIAPAV

14.00 Lecture Hall 2

Unresolved issues in Vascular Thrombosis endorsed by the French Society of Vascular Medicine

14.00 Lecture Hall 2

>> ePoster Session

15.00 Lecture Hall 2

Break

15.30 Lecture Hall 1

Pitfalls in Vascular Medicine endorsed by the Swiss Society of Angiology

15.30 Lecture Hall 2

Direct Oral Anticoagulants (DOAC) Special session of ESVM, SIAPAV and CEVF

16.00 Lecture Hall 1

Vascular compression endorsed by the Belgium Working Group of Angiology

16.00 Lecture Hall 2

Session with a special focus on AAA endorsed by the Czech Society of Angiology and Sweden

16.00 Lecture Hall 2

Tuesday, May 9th, 2017

Registration open from 06:45

07:30 Lecture Hall 1

Hot topics in vascular medicine endorsed by DGA

07:30 Lecture Hall 2

Romanian Society of Angiology and Vascular Surgery Symposium: Interventional and surgical team decisions for revascularisation in critical limb ischaemia – a case-oriented symposium

08:30 Lecture Hall 1

Multidisciplinary Vascular Centres joint Session European Society for Vascular Medicine (ESVM) and the European Society of Vascular Surgery (ESVS) and IUA

08:30 Lecture Hall 2

International Federation of Podiatricists

09:30 Lecture Hall 1

>> ePoster Session

09:30 Lecture Hall 2

Break

10:00 Lecture Hall 1

Symposium endorsed by the Hungarian Society

10:00 Lecture Hall 2

Carotid artery disease – When to intervene? Endorsed by the Society of Vascular Medicine Slovakia

10:00 Lecture Hall 2

Vascular Medicine Microcirculation endorsed by the Société Française de Medicine Vasculaire and the UK Royal Society of Medicine

11.00 Lecture Hall 2

State of the art lecture

11:40 Lecture Hall 2

>> Symposium

12.00 Lecture Hall 2

What are we learning from the RIETE Registry on VTE?

12.00 Lecture Hall 2

>> Symposium

13.15 Lecture Hall 1

>> Symposium

13.15 Lecture Hall 2

Medicine in Europe: Great Expectations – a closer view of four countries

14.15 Lecture Hall 2

Optimal management and treatment of Vascular Diseases endorsed by the Ukraine

15.15 Lecture Hall 2

Closing ceremony and ePoster prize award

16.30 Lecture Hall 2

>> ePoster Session

16.30 Lecture Hall 2

>> Industry Symposium

The detailed program is available via the congress app.
